Re: COVID return to school plan

Madison Consolidated Schools Administration is seeking approval of our COVID Return to In-Person Instruction Plan. It is required to review the plan and post it every 6 months until the Federal funds expire. Our district plan for returning to In-Person Instruction consists of continuing to monitor CDC guidelines and following guidance from the local health department. At this time we do not have any special modifications to our traditional school plan. We do encourage frequent hand washing and social distancing when appropriate. Masks continue to be optional.
