

## For immediate release April 6, 2018

Madison, IN: Madison Consolidated Schools announces the launch of a new, comprehensive athletic website.

As part of our continued efforts to make our website your go-to source for information, we have recently launched the <u>Madison Athletics</u> website. "With this new launch, we are able to have all athletic events in one location for Madison Consolidated High School and Madison Junior High School", shares Joe Bronkella, Athletic Director.

"We are transitioning to a new scheduling software as our current vendor will cease operations at the end of this school year. This is a large project we have had in the works for several months and we took the opportunity to incorporate the new scheduling system with a new site which brings our high school and junior high athletics together in one place", states Bronkella. "We began a soft launch during our winter sports season and have been pleased with the results. We realize there will be a learning curve for our coaches and parents - there is a lot to see on this new site. Our coaches will have a very interactive role with the site through rosters, game scores, and summaries. We will be working closely with our coaching staff to ensure they are comfortable with the new site and parents have accurate, up-to-the-minute updates on cancellations and schedule changes", states Bronkella.

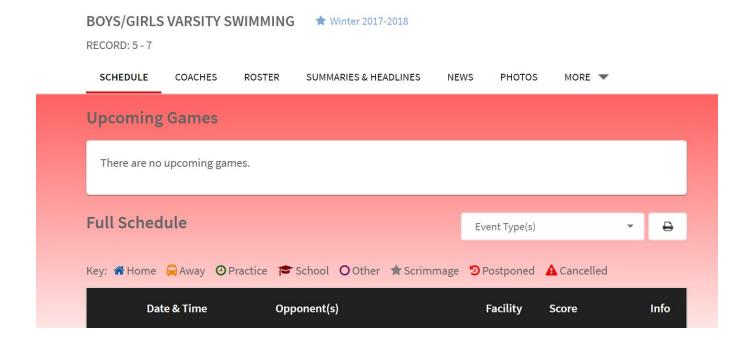

Below is a quick tutorial and a few basic step-by-steps on the new site. Please be patient as new content will be added and functionality will be phased for each team as coaches become more comfortable with navigation.
