Ref: Approval of COVID Return to School Plan

I recommend the Board approve the COVID return to school plan. It is required to review the plan and post it every six months until the Federal funds expire. Our district plan for returning to in-person instruction consists of continuing to monitor CDC guidelines and following guidance from the local health department. At this time, we do not have any special modifications to our traditional school plan. We do encourage frequent hand washing and social distancing when appropriate. Masks continue to be optional.
